GitHub: https://github.com/AMelgarejo6
Hayward, CA

Skills

- Languages: Fluent speaker in English and Spanish
- Experience in leading a team of developers in AGILE team meetings
- Experience with AGILE developer meetings
- Created full-stack projects using technologies such as; Python + flask with MySQL, HTML, CSS, and Javascript
- Full-stack projects created using React, Express, Node, and MongoDB

Technical Projects

- **Lexoletics e-Commerce Application**

https://github.com/AMelgarejo6/Full_Stack/tree/master/python%20project

Enterprise level full-stack application written in Python using flask framework with functional log-in and registration and cart checkout system. Working registration authentication and password encryption using b-crypt to ensure login safety for users. Written to be easily readable and modularized to make each piece of desired code easy to find.

- **Athlead Meetup Application (ReClub Ditto)**

https://github.com/AMelgarejo6/Java/tree/main/Athlead

Full-stack application written in Java using Spring Boot framework and Spring Boot Suite IDE. Functional login and registration with authentication to protect users. Easily readable and reusable code, modularized components.

- **Portfolio Website (NextJS, TailwindCSS)**

https://github.com/AMelgarejo6/First-Portfolio

Mobile and tablet responsive portfolio website built using NextJS and Tailwind CSS framework. Designed elegantly with a functional dark/light mode switch.

Professional Experience

Gen Korean BBQ   December 2018 – March 2021
Server — Fremont, CA
- Experience working and communicating as a team.
- Learned how to balance multiple tasks in a short amount of time.
- Quickly thinking of ways to be more efficient around the store while also catering to diners' needs.
- Developed skills to do well under pressure and trained many new servers.

In-N-Out Burger   March 2018 - December 2018
Store Associate — Union City, CA
- First job experience where I learned many skills to work well with my peers.
- Learned to provide quality service to customers with a smile.

Ramen Nagi   March 2022 - June 2022
Server — Palo Alto, CA
- Continuing giving quality service to many customers every day and great experience in a team environment.

Education

Coding Dojo   August 2022 - November 2022
Silicon Valley, CA
- Learned three full-stack technologies to build Full-Stack applications.
- Worked in a team of developers in AGILE project meetings.

Moreau Catholic High School   August 2013 – May 2017
Hayward, CA
- Led CMT (Campus Ministry Team) in school-wide events and community building.
